

Bone Support Formula

The ultimate professional blend of bone support nutrients.

Contains optimal amounts of the key bone building nutrients that are vital to the prevention of osteoporosis. Contains every nutrient required for bone support. Two caplets contain Calcium: 500mg, Vitamin D: 400 IU, Magnesium: 250mg, Phosphorus: 250mg, Silicon: 1.5mg, Ipriflavone: 300mg, along with additional vitamin C, B-vitamins, zinc and copper. Osteoporosis affects one in four women and one in eight men over the age of fifty and deaths from the consequences of osteoporosis kill more women each year than the combined mortality rate for breast and ovarian cancer. Osteoporosis is 100% preventable, simply by providing bones with optimal nutrient support and getting sufficient weight bearing or resisted exercise. This product is especially useful for women over 45 and men over 50 who require additional calcium, vitamin D and other bone support nutrients to prevent bone loss as they age, than do younger individuals. Don't wait one more day to get on track with an effective osteoporosis prevention plan.

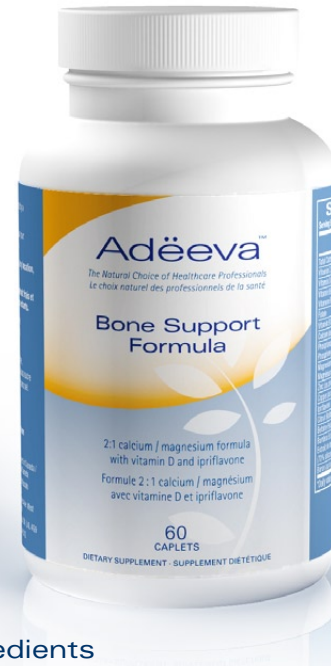

Clinical Applications:

Best used with Adeeva All-in-One Multi-Vitamin and Mineral

All women and men over age 40 (the goal is minimum 1000 mg of calcium and 800 IU of vitamin D per day from supplementation, which is provided by the Adeeva Multi-Vitamin and 2 Bone Support Formula caplets)

Adjunctive nutritional support for colorectal cancer patients and familial polyposis

High-Blood Pressure (1000-1500 mg of calcium can lower blood pressure by relaxing vascular smooth muscle and flushing out excess sodium through the kidneys)

Active Ingredients

Total Carbohydrates	<2 g
Vitamin C (as ascorbic acid)	50 mg
Vitamin D (as cholecalciferol)	400 IU
Vitamin B6 (as pyridoxine hydrochloride)	9 mg
Folate	200 mcg
